SHOTmini™/SHOTMASTER™ SX series

MUSASHI's general-purpose desktop robot, the global de facto standard.

SHOTmini™/SHOTMASTER™ SX series Line up

Specifications

Item name	SHOTmini100SX		SHOTmini 200SX		SHOTMASTER 300SX		SHOTMASTER 400SX		SHOTMASTER 500SX		
Model	SM100SX-3A-SS	SM200SX-3A-SS	SM200SX-3A-Z-SS	SM200SX-4A-SS	SM300SX-3A-SS	SM300SX-4A-SS	SM400SX-3A-SS	SM400SX-4A-SS	SM500SX-3A-SS	SM500SX-4A-SS	
No. of controlled axes	3-axis		4-axis		3-axis		4-axis		4-axis		
Travel ranges	X-axis, Y-axis	100mm		200mm		300mm		400mm		500mm	
	Z-axis	50mm						80mm			
	W-axis	-		±360°		-		±360°		-	
Setting range of PTP operation speed (*1)	X-axis, Y-axis	1 to 800 mm/s									
	Z-axis	1 to 350 mm/s		1 to 250 mm/s		-		1 to 400 mm/s		-	
	W-axis	-		1 to 900°/s		-		1 to 900°/s		-	
Setting range of interpolation operation speed (*1)	X-axis, Y-axis	0.1 to 800 mm/s									
	Z-axis	0.1 to 350 mm/s		0.1 to 250 mm/s		-		0.1 to 400 mm/s		-	
	W-axis	-		0.1 to 900°/s		-		0.1 to 900°/s		-	
Repetitive positioning accuracy (*2)	X-axis, Y-axis	±0.01mm									
	Z-axis	±0.01mm									
	W-axis	-		±0.01°		-		±0.01°		-	
Loading capacity (*3)	Y-axis	8kg				15kg					
	Z-axis	2kg		3.5kg		2.5kg		7kg		6kg	
Rated voltage and frequency	AC100-240V 50/60Hz										
Power consumption	100W		120W		200W		220W		200W		
External dimensions (*4) (excluding protrusions)	W	202mm		302mm		510mm		610mm		710mm	
	D	290mm		301mm		570mm		670mm		770mm	
	H	440mm		455mm		555mm		590mm		690mm	
Weight	11kg		13.3kg		14.5kg		15.5kg		37kg		
		40kg		55kg		58kg		66kg		69kg	

SHOTmini™/SHOTMASTER™ SX&OX series Common specifications

Common specifications

Control method (*5)	PTP control and interpolation control	
Interpolation function	3-D line, 3-D circular arc/circle, 3-D elliptic arc/ellipse, spline	
Number of input/output signal points	General-purpose input	26 points
	General-purpose output	26 points
Program entry method	Teaching pendant, PC	
Program display language	Japanese, English, Chinese	
Program capacity (*6)	40000 steps (999 channels)	
Program storage system	Internal	Internal memory
	External	Backup on PC with dispensing pattern editing software
Program editing software	MuCAD V (option)	

- *1 These values vary depending on the operations, weight and center of gravity of the loaded object, and other factors.
- *2 This value is measured by the method specified by Musashi (measurement method complies with JIS).
- *3 When options are not installed. The value varies with setting speed, setting acceleration/deceleration time, and operations.
- *4 W and D are the dimensions of the lower section of the case.
- *5 PTP control: Control to move each specified axis to the end coordinates at each speed. Interpolation control: Control to move each specified axis to the end coordinates at the total interpolated speed.
- *6 Main routine: 1 to 99 CH, sub routine: 100 to 999 CH
- * OX series has no (motor) step-out specifications.

Outside drawings

Angled approach

4-axis specification robot

Work rotation specification (custom)

Easier maintenance

Nozzle adjuster

- Automated nozzle position offset adjustment after syringe replacement
- Significant reduction in downtime
- Nozzle position can be adjusted while dispensing program is running

SHOTmini™/SHOTMASTER™ QX series

A fusion of dispensing technologies:
“High Precision” and “High Rigidity”

SHOTmini™/SHOTMASTER™ QX series Line up

Program storage system	Internal	Internal memory
	External	Backup on PC with dispensing pattern editing software
Program editing software	MuCAD V (option)	
Controller external dimensions (excluding protrusions)	W450×D340×H265 mm	
Weight of dispense controller	18kg	

- *1 These values vary depending on the operations, weight and center of gravity of the loaded object, and other factors.
 - *2 This value is measured by the method specified by Musashi (measurement method complies with JIS).
 - *3 When options are not installed. The value varies with setting speed, setting acceleration/deceleration time, and operations.
 - *4 PTP control: Control to move each specified axis to the end coordinates at each speed. Interpolation control: Control to move each specified axis to the end coordinates at the total interpolated speed.
 - *5 Main routine: 1 to 99 CH, sub routine: 100 to 999 CH
- *The XM460SX series, XM680SX series and XMQX series correspond to industrial robots.
*All models have no (motor) step-out specifications.

■ Outside drawings

Coordinated with dispenser

Synchro Speed™ function PAT.P

Maintains a fixed line width, regardless of robot speed. Achieves high-quality dispensing automatically, without the need for any complex adjustments.

Right-angle dispensing

Fully enhanced operability

Teaching pendant

- Large, high-visibility screen with backlight
- 2-screen display makes programming easy
- Equipped with interactive user-friendly interface function
- Stopwatch function
- Dispensing condition switching function

- Data transfer function between robots
- Available in Japanese, English, and Chinese

IMAGE MASTER™ 350PC Smart

Introducing essential units and new functions for micro-dispensing and reliable production.

Full 3D alignment and tracing function

The 3D alignment and tracing functions enable “tracing (Z correction)” that provides XYθ correction to suit tilted or deformed pallets or workpieces, and maintains a constant clearance with warping or

distortion. This ensures more reliable dispensing. Now the dispensing track can be corrected to suit fluctuations in the shape of the workpiece.

■ Z correction

■ XYθ correction

■ Dispensing track correction NEW

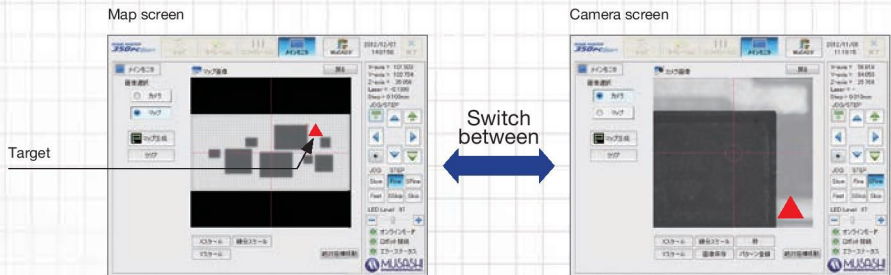

Camera teaching function

Align camera with dispensing position

Register coordinates

Program completed

Saving program creation time

Reduced cycle time and greater yield

Easy liquid material changes and automatic correction

Syringe set-up function

Nozzle tip misalignment after changing liquid material can result in impact with work pieces or faulty dispensing.

Tools required for reliable dispensing

Accessories unit

- Nozzle cleaning
- Test shot stage
- Nozzle touch sensor

Designed to handle various work shapes

Image processing and positioning recognition

- Pattern matching
- Center of gravity detection
- Edge detection NEW

Suitable for devices with irregular corner cuts

Unique operation function to easily correct misaligned nozzles

- Nozzle offset function
- Z-axis zero-point function

Production management

- Production log function
- Flexible start function
- Process monitoring function
- Recipe import/export function

Inspection

- Dimensions measurement function
- Image map creation function
- Dispensing track tracing function
- Quick dispensed area verification function

Outside drawings

Measurement unit (mm)

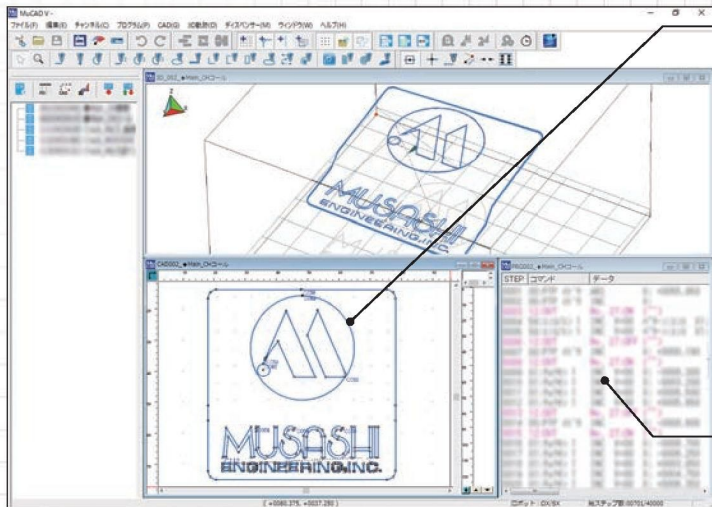

MuCAD V™

Complex dispensing operations can now be programmed quickly and intuitively.

Powered with the leading dispensing know-how!

- Saving editing time.
- Intuitive drawing of dispensing patterns.
- Edit dispensing patterns easily, even by beginners.

Entry by drawing

Use the mouse to create the "drawing" program to be dispensed

Useful functions

Generates multiple zigzag array program

Works straight away with various work layouts. Includes "copy/rotate/flip" function for dispensing programs.

Linked

Entry by command

Create accurate programs by entering values

Useful functions

Pattern generator function

Configure any device layout on wafers. Helps to reduce programming time significantly.

Automatic program creation

Automatically create dispensing programs from Gerber data.

- Can also be created automatically from sources other Gerber data
- DXF data
- Coordinate data

Cut out dispensing prohibited areas

Includes cut intermediate dispense area function to separate dispensing into dispense areas and prohibited areas.

*For conformal coating

Cut intermediate area

Drawing by hand function

Programs can be created intuitively by hand (free line drawings).

Mu-Sketch

System requirements

OS	Windows® 10, Windows® 8.1, Windows® 7
CPU	Pentium® 4 2 GHz equivalent or faster
Memory	512 MB or more (1 GB or more recommended)
Display	XGA (1024x768) or higher resolution
Hard disk	100 MB or more available space
USB port	USB port x1 (SHOTMASTER QX/SX series, CROSSMASTER QX/SX series)
Serial port	Serial port x1 (SHOTMASTER DS/DSS series, other older models) Separate serial port x1/unit required when connecting the dispenser. USB serial converter can be used.
Applicable robots	SHOTMASTER QX/SX series, SHOTMASTER DS/DSS series, CROSSMASTER QX/SX series, also compatible with other older models
